Debauchery, depravity, perversion, mayhem,  
*and* historical significance!

## *Vienna Dolorosa* a graphic literary novel

by Mykola Dementiuk

Set in Vienna, Austria on March 12, 1938, the entire story takes place the day Hitler "invades" Austria, formerly part of Germany. At the center of the story is a hotel doubling as a brothel. The hotel owner, manager, maid, and day manager are all central characters. We also have hotel guests (a Jewish couple and a German industrialist traveling with his daughter), a Jewish brothel client, Nazi SS, a German policeman, and a darling street boy. Gruesome at times, funny at others, *Vienna Dolorosa* is a bold and brutally honest first novel that will keep you spellbound.
