Synergy Press announces the publication of *Selected Tales*, a collection of seven short stories by Mykola Dementiuk. Lust, love, fear, humor, tenderness, passion, and pain are all part of *Selected Tales*. Each story reveals Mykola's sharp eye for detail and his great insight into the human condition. His love for words is obvious throughout.

If we had to pick our favorite, it would be "The Electric Guy," which gets into the head of an imaginative man working at an all-girls high school. It's hilarious, especially when read out loud.

"Kiss Me" shows so perfectly both sides of a teenage boy/girl encounter (could it enlighten even grown-ups?).

"Cosmo Girl" gives us a wonderful peek into a young woman's view of modern marriage and femininity, and "Drama of a Gifted Child" will surely warm your heart as it did ours.

"Her Kid Sister," a story of lust and satisfaction, is Mykola's favorite, and "Dead Joey" reminds us of lessons learned in childhood.

The last story in the book, "Without You I'm Nothing," is somewhat melancholy, but it so accurately portrays the depression that can come with life change.

None of these stories have the hard edge that other of Mykola's writings have, but they will make you laugh, and perhaps cry. Certainly they will make you think.

Book is \$13 postpaid, or \$10 when ordered with any other Synergy Book.
